Vibe Coding — AI Development

AI SALES AUTOMATION & PROTOTYPING

SaaS MEDDIC-App — AI Sales Discovery Platform

Designed and built a proprietary AI-powered SaaS implementing the MEDDIC sales methodology. Pre-meeting AI agents analyze 10-K reports, news, and executive content to generate structured MEDDIC discovery briefs. Live production tool used in active sales cycles.

n8n AI SDR Automation Workflows

Built AI-powered SDR workflows for automated lead scraping and enrichment from LinkedIn and news sources, scoring prospects and feeding CRM pipelines automatically using LLM reasoning chains.

n8n Multi-Agent Workflow Orchestration

Orchestrated workflows connecting HubSpot, Slack, Notion, and Gmail using n8n automation platform. AI-driven process automation reducing manual sales ops overhead.
